

As a Speas sponsor we are lifting up future generations! Our projects help the teachers and are fun learning experiences for the kids!

Speas Elementary Sponsor -

(Activities run throughout each school year)

In support of the children in our community, Fairview has partnered with Speas Global Elementary School. Projects for the school are designed to help the teachers while being fun learning experiences for the kids. Our hope is that teacher, staff and students realize they matter and there are people who care about them!

The Fairview projects provide each grade with something to brighten their school experience. These projects have included leaf tags tied to bags of candy for the teachers and staff, “graduation” cards for 5th graders, art pads and crayons for 2nd graders, activity ideas for 1st graders, and an Easter egg hunt with books to give 3rd graders. Donations are beneficial and make the efforts of this ministry go a lot further. Contact us for more information on becoming part of this team to help lift up the future generation!
